Motorola ELITE SLIVER™ Fact Sheet

So small, the only thing they'll see is you

It's the headset that can hardly be seen, but definitely can be heard. Motorola ELITE SLIVER combines an understated design with advanced technologies such as Near Field Communication (NFC) and enhanced My MotoSpeak™ capabilities to provide users with rich, clear audio and hands-free texting.

Extreme call clarity

Because nothing is more unfashionable than having to shout to be heard, HD Audio Plus with true wideband audio and CrystalTalk™ dual-mic technology provides rich, clear audio and block out distracting background noise.

Keep moving

Motorola ELITE SLIVER has an extended roam range of up to 300 feet¹. This means that you can take your style across your home or office – without having to take your phone. And it's easy to set up. Near Field Communication (NFC) technology connects the headset to your NFC-enabled phone just by tapping the two devices together².

The newest texting trend

My MotoSpeak³ is the next evolution of text messaging. The Android™ application, which can be installed on your smartphone in minutes, now allows you to send texts without touching your phone and hear them read aloud. New capabilities allow users to initiate a text in addition to responding to incoming messages. My MotoSpeak can also interpret and read most acronyms, so you won't miss out on a chance to LOL.

The ultimate accessory

Motorola ELITE SLIVER comes with its own accessory – a carrying case that also acts as a battery charger. Not only will you have a stylish carrying case for your equally stylish headset, the case re-charges the headset when you're on the go, for up to 15 hours of talk time⁴.

Barely visible leaves you impossible to ignore

A true lightweight, Motorola ELITE SLIVER weighs in at less than half an ounce. Its discreet design ensures that people see you, not your headset.

Motorola ELITE SLIVER	
Talk Time ⁴	Up to 5 hours for headset alone, up to 15 hours when re-charged by case
Standby Time ⁴	Up to 35 days with case
Bluetooth® Version	3.0 with Enhanced Data Rate (EDR)
Weight	Headset: 9g Case: 38.7g
Dimensions	Headset: 38.0mm x 47.4mm x 14.5mm Case: 55mm x 66mm x 28mm
Features	<ul style="list-style-type: none"> • Tap to pair with Near Field Communication (NFC) technology² • HD Audio Plus and CrystalTalk™ dual-mic technology. • Extended Roaming Range of up to 300 feet with Class 1 Bluetooth technology¹ • My MotoSpeak™ for hands-free texting³ • Rotate and Go power switch • A2DP audio streaming • Advanced voice prompts

¹ To achieve full 300 foot range, extended range (i.e. Class 1) phone needed. Obstructions between headset and phone may reduce range.

² Phone must also be NFC technology-enabled.

³ My MotoSpeak optimized for Android-powered 2.2+ phones

⁴ All talk and standby times are quoted in Digital Mode, and are approximate.

The use of wireless devices and their accessories while driving may cause distraction. Discontinue use of the device if you can't concentrate on driving. Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

All features, functionality and other product specifications are subject to change without notice or obligation.

These devices support Bluetooth® hands-free, A2DP and serial port (SPP) profiles. Certain Bluetooth features, including those listed, may not be supported by all compatible

Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality, or visit www.Motorola.com/bluetoothconnect for more details.
